

# **La energía como factor de competitividad de la industria con dimensión internacional**

**Antoni Zabalza  
Presidente de Ercros**

**Foment del Treball Nacional y Forum Energía Empresa  
Barcelona, 10 de abril de 2014**

# Intensidad energética por sectores industriales en la UE

Fig. 87 CE Energy prices and costs report 17.3.2014

Source: Eurostat, 2011 annual data.

Note: The breakdown in national accounts is based on 2-digit NACE codes. Industry is manufacturing industry minus 'Other manufacturing' (no electricity and gas consumption data). Refining industry is not included (no final electricity and gas consumption in national balances). Industry average includes Mining and quarrying.

# Intensidad energética por sectores industriales en la UE

**Estimated share of energy costs compared to total production costs in some industrial products**

*Tabla 31 CE Energy prices and costs report 17.3.2014*

Industry	Energy as share of total production costs
Chemicals	Ammonia – 80% Ethylene – 60% Chlorine – 40%
Lime	About 40%
Aluminium	35-40%
Ceramic	About 30%
Cement	30%
Steel	20-30%
Glass	20-30%
Pulp and paper	15-20%
